

## Stop!

Say stop if your protective clothing is not suitable for the current work situation!

## PPE is mandatory

Your **Personal Protective Equipment** will be provided by us and must be worn without exception! Your PPE consists of:

### Work clothing

Pants | T-shirts | Sweaters | Softshell jackets or Winter jackets (with high-visibility features)

#### ATTENTION:

Short work pants are **NOT permitted!**

### Safety shoes

S3 safety shoes with ankle-high shafts as a minimum must be worn on construction sites!

### Protective helmet

The chin strap must be worn and fastened at all times! Don't forget: Capsule ear protection and a protective visor!

### Protective glasses

In addition to the protective visor, protective glasses may be required for special tasks!

### Protective gloves

Always wear the required type of protective gloves!

#### EXCEPTION:

When working with rotating/moving parts, **NO gloves** may be worn!

## PPE - Protection against falls from a height!

Your **Personal Protective Equipment** against falls will be provided by us and is mandatory to wear!

- > **Fall protection set H500** for working on work platforms
- > **Fall protection set H700** for working on racks

## Safety is mandatory!

Observing safety measures during all activities on work platforms is mandatory!

#### ATTENTION:

The work platform railing is **NOT** considered an **attachment point!**

## Rules for ladders, steps and scaffolding!

Only use ladders if no scaffolding or work platforms are available!

#### ATTENTION:

Only work on ladders up to a **height of 5 m** and with a **maximum load of 10 kg!**

## Fit for the construction site?

Occupational health care is vital to protecting you and preventing work-related illnesses!
