Unser Service. Ihr Schutz.
Sicherheit: Auch wenn es brennt.

Reliability is a top priority for us!

CALANBAU has over 30 years' experience and is a certified VdS-approved installer of stationary fire protection systems. We ensure top-quality system servicing, care and maintenance as a matter of course.

We install the following stationary fire protection systems:

-  Sprinkler systems
-  Water spray extinguishing systems
-  Foam extinguishing systems
-  Fire detection systems
-  Hydrant systems
-  Special extinguishing systems
-  CO2 and argon gas extinguishing systems
-  Pipe pre-fabrication

Our service personnel ensure that your system keeps working reliably at all times. VdS guidelines specify that regular inspection, servicing and maintenance work are required to keep extinguishing systems in good working order.

Depending on the system, this means:

- Weekly and monthly routine inspections
- Quarterly, annual, 3-year and 15-year routine inspections
- Bi-annual / annual maintenance services
- 25-year overhaul / 12.5-year overhaul

Faults and emergencies don't always occur during business hours! As a VdS-approved installer, CALANBAU performs all these services for you, enabling you to concentrate on your core business – safely!

Taking good care of your fire protection systems through effective servicing increases their service life. We can help you achieve this!

Our service to ensure your safety!
Solutions you can rely on – for a fast response.

Our service to you:

- On call round the clock 365 days a year
- Nationwide presence, ensuring a quick response
- Service hotline providing centralised coordination
- Staff undergo regular training and carry a supply of spare parts

**24-hours
Service | Emergency**
